CHANGES IN **PERSONNEL OF** OFFICE STAFF

Gardinor Leaving American Will May Suceed.

With the return of prosperous busiconditions will come a change in the purchasing department of the American Graphophone Co. About American Graphophone Co. About October 1. Charles R. Gardinor, the present purchasing agent, will leave to accept a similar position with the International Silver Co. of Meriden, Conn. Although it has not yet been definitely decided who Mr. Gardinor's successor will be it is said on excellent suthority that Herbert W. Elwill will return to the position which he held until May, 1907. Mr. Gardinor who has already handed in his resignation was formerly connected with the Westinghouse Co. in Pittsburg and later with the National Cash Register Co. of Dayton, Ohio, Mr. Elwill, who it is expected will return, was connected with the Graphophone Co. for over 13 years, working his way from a clerk to the head of the purchasing department. At present he is in business in Long Island.

With the change there will be a shift among the assistants, for Guy W. Elleman, assistant to the purchasing agent, will probably go to Meriden with his chief, who brought him here from Daytom, Ohio, 'If Mr. Elwill does not accept his old position the new officer will be chosen from the present staff. Those most talked of for the position are James J. Bunton, assistant executive officer. Detober 1. Charles R. Gardinor, the

School Teacher Brooded Because They Failed to Win Contest.

Philadelphia. Aug. 28.—Despondency because she failed to win for her pupils the prize in a voting contest for schools drove Edna M. Schaeffer. 20 years old, of No. 2910 East York street, this city, to snielde by drowning last night. She leaped into the Rancocas Creek at Delanco, N.J., and the efforts of three men to save her were in vain. The loss of the voting contest caused her such disappointment that she suffered from melancholia and nervous prostration.

ECZEMA CURED

elexion Cleared Over-Night

New Tork.—Thousands are taking advantage of the generous offer made by The Woodworth Co., 1161 Broadway, New York City, requesting an experimental package of Lemola, the new skin discovery, which is mailed free of charge to all who write for it. It alone is sufficient to clear the complexion over night and rid the face of pimples in a few hours.

Those who have tried LEM-OLA will find that the 50c box on sale in Bridgeport at all drug stores is sufficient to cure the worst form of Ec-sems where the parts affected are not too large. On the first application of Lemola the itch-ing will stop. It has cured thou-sands afficted with Ecsema, Testers Rashes, Itchings, Irrisands afflicted with Eczema, Testers, Rashes, Itchings, Irritations, Aome, Scalings and Crusting of skin, scalps of infants, children and adults. It is good for the preservation and purification of the skin, scalp, hair and hands, for the prevention of the clogging of the pores the usual cause of pimples, blackheads, redness and roughness and also the treatment of burns, scalds, wounds, sores, chappings as well as the tollette and nursery.

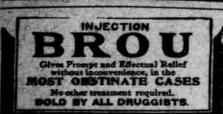

It contains no grease and be-ing flesh-colored the presence of Lemola on the face or hands is

Marriage of the Adriatic "The marriage of the Adriatic" was instituted in commemoration of a naval victory won by Sebastian Ziavi, doge of Venice, over Otto, son of Frederick Barbarossa, 1174. In consequence of this victory Pope Alexander III., who had been driven to take refuge in Venice, gave to the doge the sovereignty of the sea, and every year the doge used to go in grand procession in his state barge and throw a gold ring into the Adriatic, saying; "With this ring I Graphophone Co. and El- thee wed." Flowers were then thrown into the sea, and the procession returned. The sentence delivered by the doge on the occasion was literally, "Despousamus te mare nostrum in signum veri perpetuique domini."

Bible Arithmetic.

Ezekiel's reed was nearly eleven feet; a cubit was nearly twenty-two inches: a hand's breadth is equal to three and five-eighths inches; a finger's breadth is equal to a little less than an inch; a shekel of silver was about 2s.. 8d.; a shekel of gold was £2; a talendof silver was £400; a talent of gold was nearly £6,000; a piece of silver, or a penny, was 81/4d.; a farthing was equal to halfpence; a mite was less than a farthirs a gerah was 11/d.; an ephah, or bath, contained four gallons and five pints; a hin was three quarts and three pints; an omer was six pints; a cab was five pints.-London Globe.

The invincible armada was a famous naval expedition sent by Philip II. of Spain against England in 1588. It consisted of 130 vessels, 2,430 great guns, 4,575 quintals of powder, nearly 20,000 soldiers, above 8,000 sailors and more than 2,000 volunteers. It arrived in the English channel on July 19 and was defeated the next day by Admiral Howard, who was seconded by Drake, Hawkins and Frobisher. Eight fireships having been sent into the Spanish fleet, they bore off in great desorder. Profiting by the panic, the English fell upon them and captured or destroyed a number of their ships, and Admiral Howard maintained a running fight from July 21 to July 27, with such effect that the Spanish commander, despairing of success, resolved to return home, and as escape through the English channel was prevented by con-trary winds he undertook to sail around the Orkneys, but the vessels which still remained to him were dis-persed by storms or shipwrecked among the rocks and shallows on different parts of the Scottish and Irish coast, and upward of 5,000 men were drowned, killed or taken prisoners. Of the whole armada fifty-three ships only returned to Spain and these in a wretched condition. The English lost but one ship.

The Marcons The Maroons were the descendants of African slaves, brought to Jamaica by the Spaniards. During the conquest of Jamaica by the English the Ma-roons, deserted by their masters, fied to the mountain fastnesses, where they lived a fierce, wild life. Increasing daily in number by the many deserting slaves, the Maroons soon became for-midable to their white neighbors, whom they plundered and killed. In 1738 an ment was made which secured to them an independence, which they maintained for 140 years, but the English finally determined to exterminate them and for this purpose pursued them barbarously with bloodhounds. Hemmed in on every side and hunted down, they were compelled to submit, and only 600 escaped, who were trans-ported to the bleak shores of Nova Sco-tia, where they perished miserably.

The Sunday Stone.

The "Sunday stone" of the Oxford museum was taken from a colliery drain and is a perfect calendar of Sundays and holidays. It is composed of carbonate of lime. When miners were at work, the water running through the drain left a black deposit colored by coal dust. At other times the water ran clear, leaving the stone deposit white. In course of time these black and white layers formed a stone of derable thickness, which constitutes a very complete calendar. Each day of work has as its record a black streak, followed by a white streak, which marks the hours of rest at night. Wider white streaks mark the Sundays and whole holidays, and thus it has taken its name as the "Sunday stone." -London Mail.

Rossint's Memory Rossini's memory was lacking in retentiveness, especially in respect to the names of persons who had been introduced to him. This forgetfulness was frequently a cause of amusement whenever Rossini was among compa ny. One day he met Bishop, the English composer. Rossini knew the face well enough and at once greeted him. "Ah, my dear Mr."— but the name escaped his memory, and to convince him that he had not forgotten him Rossini began whistling Bishop's glee, "When the Wind Blows," a compliment which "the English Mozart," as Bishop had been dubbed, recognized quite as readi-ly as if his ecclesiastical surname had

been mentioned.

A mob is usually a creature of very mysterious existence, particularly in a large city. Where it comes from or whither it goes few men can tell. Assembling and dispersing with equal suddenness, it is as difficult to follow to its various sources as the sea itself, nor does the parallel stop here, for the ocean is not more fickle and uncertain, more terrible when aroused, more unreasonable or more cruel.-Dickens.
